## Consents - Building Consents and Building Inspections

Council has two key roles in Building Control. One is the processing, inspecting and certification of building work via the Building Consent process. The other is that of a Territorial Authority with the primary focus on Public Safety. With particular emphasis around Building Warrants of Fitness, Swimming Pools and Earthquake Prone Buildings. In addition to this the TA function deals with illegal buildings, enforcement actions and general guidance.

Council's Consent and Inspections role is independently assessed every two years as a Building Consent Authority.

Given the range of building project work that Council processes, a range of fees are applicable. These usually consist of an initial fee and any further fees required are charged at an hourly rate if technical advice or processing exceeds the initial fee.

**These charges apply to all actions of the Council for which a charge may be levied pursuant to Section 219 and 240 of the Building Act 2004. The following outlines general fees for processing Building Consents. Further detail is provided under headings in the tables below:**

### **Inspection Fees rate duration**

All fees for Building Consent Inspections are valid for the two-year duration of a building consent. If you require an extension, any inspection carried out during the extension period will be at the rate applicable at the date and time of the inspection.

### **Investigation/Enforcement Fees**

The Council will investigate instances of alleged non-compliance with the Building Act 2004, the Building Code and related matters. In the event that an investigation concludes that an offence has occurred, costs associated with such investigations, calculated in accordance with the hourly rate specified will be recovered from the offending party or owner of the property on which an offence has occurred. Where a non-compliance with the Building Act, Consent or Building Code requires a Notice to Fix Council will also charge for the cost of the Notice.

### **Please also note that:**

- The standard fees in this schedule are minimum fees.
- Building consents will be granted and released once full payment of the fees has been receipted.
- Where the cost of processing significantly exceeds the fee or deposit stipulated below, then an actual time charge shall be payable at the hourly rate as set out in the schedule below.
- Fees associated with processing the building consent cover the assessment only. Inspections, lodgement, Code Compliance Certificate (CCC) and other professional fees are charged separately.
- An initial lodgement fee is required with all Building Consent and Certificate of Acceptance (COA) applications.
- COAs require the highest level of technical input which may result in additional fees.
- Council will refund any unused portion of fees for cancelled or withdrawn consents.
- Specialist services (payable at cost) and Central Government levies payable via Council are additional to fees and charges.
- Fees are charged based on the market value of the building project or as specifically identified.
- The deposit fee is the total of the document online fee, the planning check fee and the processing fee, based on project value unless otherwise stipulated.

### Timing of Payments

All the charges and amounts listed in this schedule (unless otherwise specified) are payable in advance of any action being undertaken by the Council. Pursuant to section 36AAB(2) of the Resource Management Act 1991, the Council need not perform the action to which the charge relates until the charge has been paid in full.

### Fixed Initial Deposit Charges

Fixed Initial Deposit Charges are levied at the start of the application process and are payable **prior to any work commencing on an application**. Notwithstanding that a fixed initial deposit charge may be paid the Council will commence processing the application only when it is satisfied that the information received with the application is adequate. Fixed Initial Deposit Charges are not subject to the rights of objection and appeal.

Since resource consent applications can vary significantly in their content and nature, the Council cannot set one Fixed Initial Deposit Charge that would be fair and reasonable in every case. The fixed charges shown in the schedule are the minimum Fixed Initial Deposit Charge for that particular application category. A fixed charge higher than the minimum could be required and this would be dependent on the nature and scale of each specific application (see miscellaneous section). During the course of processing an application, the Council may charge additional charges in relation to costs incurred above the fixed charge already received. Pursuant to section 36AAB(2) of the Resource Management Act 1991, the Council reserves the right to cease or suspend processing of any consent where any amount invoiced remains unpaid.

The Fixed Initial Deposit Charges this year have been increased to more closely reflect the actual costs of processing the applications, which will then allow for a quicker issuing of the completed consents. For the larger and more complex applications additional 'Fixed Initial Deposits' may be required or more frequent invoicing may occur.

For public notified and limited notified resource consents there is an additional 'Fixed Initial Deposit Charge', which needs to be paid before the notified process is begun, to cover the costs of notification. For applications that require a hearing it is likely there will be further costs and applicants may be required to pay these prior to the commencement of the hearing.

Any unused portion of your deposit will be refunded.

### Additional Charges

Additional charges will be required under section 36(5) of the Resource Management Act 1991 where the fixed charge is inadequate to enable the Council to recover its actual and reasonable costs relating to any particular application.

An additional charge to recover actual and reasonable costs will be made where the costs exceed the fixed charge paid.

Additional charges may be invoiced on a monthly basis as they are incurred.

### Set Fees

Set fees are payable at the time of application and no additional charges will be made.

## Alcohol Licensing Charges (set by Central Government)

### Categories

The licensing system has five fee categories, which reflect the range of cost/risk ratings.

Total rating	Fee category
0-2	Very low
3-5	Low
6-15	Medium
16-25	High
26 plus	Very high

Determining a premises' cost/risk rating

Premises' cost/risk rating is determined by a combination of factors.

The above table shows how premises' cost/risk rating are determined. For example, a bottler store (scores 15) closing at 11:00 pm (scores 3) with two enforcements in the last 18 months (scores 20) would have an overall cost/risk rating of 38.

Licence type	Type of premises	Weighting
